

Action Against Stalking Corporate Packages

Our Mission

Action Against Stalking is the only anti-stalking support charity operating in Scotland. We understand the prevalence of stalking in our communities and the life-changing impacts of this crime.

- About 11.8% of adults in Scotland are stalked. For 1 in 4 women and 1 in 7 men, stalking leads to serious life changes—94% are forced to alter their daily lives, and over half change or leave jobs.
- Stalking's devastating impact is clear: 24% of those affected in Scotland experience suicidal thoughts, highlighting the urgent need for support and intervention.

Our mission is to establish a world where everyone has a right to live without fear of psychological or predatory threats.

We do this by:

Educating and informing all about the harm caused to people's lives by stalking.

Championing the rights of those affected by stalking.

Supporting victims of stalking.

Our Service

Our Throughcare Support Service puts victims at the centre of our work and provides free, confidential and professional support and advocacy to victims of stalking to empower them with the knowledge that they are not alone.

With your help, we can continue this pioneering mission to make Scotland safer for victims of stalking.

Key Benefits to Your Business

Employees are at the heart of every business, so we understand the importance of employee safety and well-being. We know that stalking happens within and is also brought into the workplace, so it is vital that stalking is understood and managed appropriately.

Stalking is a crime which has emotional and psychological impacts on victims, which can affect employee attendance, productivity, and overall feelings of safety. But we are here to help.

Provide direct support to the people of Scotland.

Be associated with an innovative charity that campaigns for change and has a clear purpose.

Build on your reputation as a socially responsible company.

Learn more about supporting employees while having sensitive conversations and the relevant workplace safety policies.

Enhance awareness about what your company offers to a new audience.

Our Reach

is growing, and we would love for you to be a part of the mission to make Scotland safer for stalking victims.
